

Alright, hey, welcome. So if you're here, I'm assuming you're one of two things. You're either a business owner who's looking to train your set as to help you grow your business or you are someone who is looking to learn what paid setting is and how to be paid to that for existing businesses who sell high ticket offers. Anyways, I'm going to be sharing with you the exact DM script, my set that used to make 100,000. \$21 in sales and was able to collect \$6,421 in personal commissions as a 21 year old last month. Right? So the goal of this is to give you so much value that you. Are so I asked. Yeah. Like you're so excited out of the value that you're going to get from this. Right? Now this are exactly what I'm going to cover. Who am I? What is paid sales in and then the foundations of the DM screen. 60% of leads who end up booking calls and how to get a guaranteed five to 10 K a month within a company within the next 32 to 19 days, but 32 to 45 days. Anyways. Yeah. Now you might be asking. Who is Abdul Kawi? Well, my name is Abdul Kawi. I'm the founder and CEO of DPS LLC, digital product secrets LLC, a business consulting firm that helps coaching businesses kill from \$30,000. A month to \$500,000 and even like \$1 million a month, right? And we've worked through the biggest names in the industry. You already know, if you probably know of Elitox, Monty and Tyler Pales, like I've worked with some of the biggest names in the industry. I'm an industry titan and I've been in this space for 10 years now. And I've worked also in several nations from how to lose weight to improve productivity, to get better at playing golf, to drop shipping. Amazon FBA, how to scale businesses, how to run ads. Like you just named the vertical and the space of the business. I've already worked with people in several nations and we've also scaled out coaching businesses from zero. To 2.5 million dollars a month in cash collected. Now this is not in like revenue or in saying Numbers. No, this is in cash collected in less than 15 months at 85%. No, we have an active network of over 2600 coaching businesses that make anywhere from 50,000 to 2,000. \$1,000 a month to 1.5 million dollars a month that they pay a firm for consulting to learn how to grow their businesses, right? And also exclusively hire team members like Setas from Now, NUTS! This is a paid training. Like this is an extraction from a paid training which members of the paid Setas University get. But you get it for free because why not, right? We make our free stuff better than, other people's paid stuff and where our goal is to reform the education system by giving people alternative ways to get to six degrees a year without under \$1,000 in student debt. Now I graduated with a second class that was in, University of Nevada in Nigeria and I want people to also understand that your degree doesn't your path to \$5,000 a month inside the Pits at our University. First one is 30 days certification program and then module two which is like the DM Scripts Foundation which is where we're at right now. And so now you might be thinking what is Pits at in? Well Pits at in is just a name for high ticket at a certain rate and if you've watched the training you already understand what that is right. Now what's the biggest problem that most business owners have? It is not having enough booked calls and because they don't have enough booked calls they don't have enough conversations that is that and they don't even have the most chats with every single person in the audience right and that's why they don't end up booking enough calls. I'm always killed between five to thirty calls by the team of five appointments that as we hit \$700,000 a month. Now, I'm also going to be sharing with you. You know, I'm always going to be sharing with you all my calendar looks like. The end goal is you want to have enough books calls. I mean, there's a percentage of that books calls times of converting, right? So here's where you come in. Your role and your function is more like a sales rep. And your duty is to message all prospects within your business on our social media accounts. And your only job is to book sales calls by typing messages on your phone. Now, if you already use Instagram, you have a phone you have internet access and there is no reason why you should be making \$5,000 to \$10,000 and I'm going to take more streets to you right now. So over here is my Instagram account, right? So every time I make a post, I always tell people comments, especially keyword, and my set that, all my set that does is why my pizza that goes out to send those people a message and I'm going to show you. And I'm going to show you an example here. So in this post, I was like comments already below and I'll send you details when done and people will study comments in radio radio radio and as you can see, the page that starts texting them that thanks for

commenting permission to send you. And if you do is when it's ready, right? People will still comments things or comments and function to send you details. Now, what you do as a page set that is you interact with the existing audience of a business owner, you don't even need to show your face. You don't need to have an online presence. You don't need to create content or anything. All you do is you just follow up with people who are already showed interest in what someone who is a business owner who already has. An audience is showing. As you can see here, my pizza that goes here and sends them a message, hey, drive your permission because you want them to give you permission for you to start a conversation or extend. When they now say, Yes, please. In Instagram, if you're chatting from the phone, you can send a message instantly and study conversation with them. Now, I'm going to show you the exact same DM script that my pizza that uses and why my pizza that, is able to make five to ten thousand dollars a month using the same process, right? So you follow a step-by-step DM script to message to notify your ex into a close-ass calendar. Now when you do a good job, this is what happens, right? You see calls booked back to back on the calendar of the business. And now I'm competing, I'm currently booked out for Ibundi Beta Day University, as I were launching. As you can see, there are more calls here. I'm completely booked out. But we also have to make sure that it's the right fit so we've been canceling, setting calls, for setting people who don't fit state right there. Now, that's just to show you that your goal is to work, converse with the audience of a person who, or as I already, you know, you can't even build that traffic and one needs who I am interested in with the alpha. And you just send them a message and find out if they are the right fit, if they are the right fit, you send them the link to a call, right? So what you're doing is following, step by step DM scripts a message prospects with the goal to go qualified prospects into a close-ass calendar. But what you're not doing is you know you ever get to show your face. You don't ever get to speak to someone on zoom or on phone. You don't need to create content or post on social media and you don't need to spend money on ads or any capital for that matter. 07:50 But therefore you will need to build complicated websites or phone-outs. Now the foundations of DM scripts that are three types of reads. The 20% hot, the 60% warm and the 20% cold. Now I'm not going to go in depth into this because you can still read this which are already sent to you if you check your email after the free training you're going to get this, right? Now the first thing you want to get in permissions DM in their inbox, right? As you can see here, my page said that I'm saying thanks for commenting permission to send you details. In a few days when it's ready, right? So you're building that anticipation for people I can hear people say, yes, permission granted, right? This is my pizza that I do in this. But people think it's myself doing it, right? Because it's me. You can see people are saying TPS, TPS, TPS, TPS. So my pizza that will go here and start sending them messages that, hey, do I have your permission to send you a message? And if you will respond, yes, then they can start. You can't get the conversation in DPMs. Now, this is the goal. You want to use common sense and be yourself. You don't want to use force to book a call with anyone. Let me let the conversation down on your end. When we will talk to you, there is an opportunity for you. You want to be able to build an advanced relationship. So take it. If people ask a lot of questions about how you do or what you do, give it a little value and propose the jump on your call to go with our more details. So when people are interested in something, you then we'll, go straight into their girlfriend like, yeah, this is what this is about and this is how they can proceed, right? So you want to use the field felt and found framework. Now this, for instance, is what I trained my set out to use. Right? I stopped running Facebook ads simply because my Facebook ads manager got banned, said, right? But knows why. And I was like, huh, how can I make money without running Facebook ads, right? And I ended up figuring out that we and I immediately post it. I made \$100,000 in eating this with 4Q followers. And I s- I said, still my framework and comment framework, see? And when people will comment framework, like I am making them understand that yes, I used to be like you struggle to generate sales simply because I was relying solely on Facebook ads. But now I no longer rely on Facebook ads. So it's like feel with your post, feel what's. The air going through right now and then the fun is I found it better way to do this, right? So and I also give you examples here, right? Yeah, I know what I need to

do to lose weight, but just can't bring myself to do it. So that again. How you feel many of our clients feel the same way when they study working with us. Here's where we found that helps them. So you want to take them through that three step process. Like I feel like this, I felt like this, and then this is where I found out, right? And. And this is just an example for someone who is going to do with loss space, right? Now your goal is to establish rapport with specific relevant messages and then build trust and authority through qualification questions like that. I am program. The 90 day rule and then your biggest obstacle. And then you ask for permission like I used to look for a call and then you schedule a call and then confirm call time, plus your worship of markets and assets, right? So then. And if they are still not proceeding, then you address them and then you continue that loop to you. Sure, that yes, you've got come the objections or the questions that you may have and then you move forward. So then here's what I want you to understand. Your goal is to close at least 60% to get 60% of the leads to book a call, right? Six to eight calls, buddy. Now, if you look at this, this was this you will book these calls, right? On the 24th of March. All these calls have been moved from the 24th of March. So my calendar is booked till the 31st of March, simply because why? I am responsible. The bringing leads for my paid set that all they do is they set the appointments in my DMs. And unfortunately, I can't show you my Instagram DMs right now, but there are tons of people who are still over there. Trying to get your response and my paid set does are trying to answer them. So I want you to understand that your job simply is to just copy and paste messages and also lead with empathy to ensure that you understand what people are specifically talking about and how what's the creator is selling is here actually for them, right? So from a stance, if I sell something that is 1000, I mean, you will be. You want to be a paid set up for someone who sells a one-key offer. You want to be a paid set up for someone who sells at least a \$3,000 offer. So if, for instance, you're able to book 50 calls that end up becoming a sell. That's 150k. That is made through your own efforts and then you get 6% of that. Now, do like the conversation, Dr. Gorn. After I prospect to apply you in DM or comments, you have the highest chance of converting, do your best to start the conversation, gain intel and an- advanced relationship in a matter of minutes. It's been this important to respond to odds and wrong leads ASAP. So keep your questions concise, right? And also you want to, when you're providing, you want to talk about the words and why not the how. Cause you do- a lot of people to be sold on the outcome and the results, not the processes, right? So related to the solutions, they are probably more in proposing a sales call. And this is even still much more in depth, right? You want to also- Look at three things you need to uncover before booking a call. They are problem- why, what, and when? They are goal, why, what, and when? And then the gap. This is what is holding them back. You want to gain permissions or impact. The ADM inbox, right? Step two. Frame the conversation. Three fine, the gap, then the current situation. And this is much more detailed. So I want you to spend time going over this, right? Game permission to provide insights on the gap that they are facing. Like what's in between them and where they want to be. Reveal the real reason why they are struggling. Then double down on it. And propose your color and send current living, right? So I want you to go over this. And people after the call, there is also a process that you go over to make sure that yes, you are sure that they are going to convert. And also there is an objection Boston script. That my set I used to take \$24,000 in personal commissions, right? And to make it easier, there is a framework and process that I follow for my Instagram stories that make sure. So, I'm not sure if I can get a little bit of a simple, genuine, convert, right? But that is what members of the Peter Day University will get as the first course that will be going through the process. But you can see this is very very, detailed as the 10 pages, as I was in depth, that you can go ahead and use as a page setter. Now, the only difference between you and someone who goes through page setter in the rest is they will get an advantage because, when they enroll and sign up for a page setter at university, we will be enlisting them into existing businesses. This is not the fact I need more page setters right now. I need a little page setters because our goal is to, hit 10 million dollars a month and we're so far from that, right now. But the more conversations we start, the more people were able to engage and the more calls were able to book, the higher chances of

getting to our, income goal. So I hope you find value in this. Now go ahead and book a call with the link. When you're done watching this, it is very, very important that you schedule a call with this. That's the only way that you're, you're going to be able to get the desired outcome that you want. So, cheers.
